Dear Andy Williams,

I write to express my opposition to Powys Local Health Board's proposals for future services in the Llanidloes area.

The proposals remove many services from the area, especially inpatient and associated facilities from Llanidloes Hospital, and there seems no coherent or logical plan for how or where those services will be provided in the future.

I am very concerned that these proposals are driven mainly by the need to save money and will result in a worsening of the provision of health facilities for the Llanidloes locality.

I would be grateful for a written reply to this letter, detailing how you intend to reprovide the services that are being withdrawn.

Yours sincerely
